PROFESSIONAL SUMMARY

I'm an Electronics and Communication Engineering graduate with a strong foundation in cloud infrastructure, virtualization, and system administration. I've developed hands-on skills in technologies like Windows Server 2022, Linux, VMware, Hyper-V, networking, and database management. Additionally, I bring experience in Python and SQL, which I use to automate tasks and analyze data for smarter decision-making. I'm passionate about building secure, scalable IT environments and excited to contribute to impactful cloud projects while continuously growing as a multi-cloud professional.

WORK EXPERIENCE

Apr 2025 - Present

Multi-Cloud Engineer Trainee

Cognizant Technology Solutions India Pvt Ltd., Chennai

- Configured and managed virtualized environments using **VMware** and **Hyper-V**.
- Deployed and administered **Windows Server 2022** and **Linux** systems.
- Applied **networking fundamentals**, including IP addressing and routing.
- Utilized **SQL** and **Python** for automation and data analysis.
- Simulated multi-cloud infrastructure scenarios and resolved system issues.

Jan 2025 – Apr 2025

Application Process Engineer

Foxconn Hon Hai Technology India Mega Development Pvt. Ltd., Chennai

- Supported process optimization and automation in electronics manufacturing.
- Analyzed production data using **Python** and **SQL**.
- Assisted in system deployment and troubleshooting for production lines.
- Contributed to lean manufacturing and continuous improvement efforts.

EDUCATIONAL QUALIFICATIONS

QUALIFICATION	INSTITUTION	YEAR	CGPA
B.E (ECE)	Global Institute of Engineering & Technology	2020 - 2024	8.27
HSC	Thiru G.V.C Higher Secondary School	2019 – 2020	74%
SSLC	Thiru G.V.C Higher Secondary School	2017 - 2018	89%

PROFESSIONAL SKILL

- **Programming Languages:** Python, SQL, Unix Shell Scripting
- **Data Tools:** Microsoft Excel
- **Networking & Systems:** Networking, Windows Server 2022
- **Operating Systems:** Linux, Windows
- **Virtualization Technology :** VMware, ESXi Hypervisor
- Ability to **communicate effectively** with clients and teams across technical and non-technical domains
- Ability to **collaborate in cross-functional** environments and contribute to team success
- Ability to **solve problems** through analytical thinking and structured troubleshooting
- Ability to **manage time efficiently**, especially under pressure and tight deadlines
- Ability to **lead and mentor**, demonstrated through guiding junior team members and organizing events

PROJECT WORKS

Pizza Sales Analysis

Technologies: MySQL, Microsoft Excel

Year: 2024

This project involved analyzing a large dataset of pizza sales to uncover trends, optimize performance, and support business decision-making through data visualization and SQL-based reporting.

- Wrote SQL queries to extract and analyze sales data
- Created reports and dashboards using Microsoft Excel
- Identified sales trends and performance metrics
- Conducted regression testing to validate software builds
- Resolved data discrepancies and optimized query performance
- Ensured compliance with Service Level Agreements (SLA)

IoT-Based Weather Adaptive Street Lighting System

Technologies: IoT, Networking, Node-RED, MySQL, Microsoft Excel, IBM DB2

Year: 2023

This project aimed to automate street lighting using IoT technology, improving energy efficiency and urban safety by responding to real-time weather conditions.

- Automated street lighting based on weather conditions using IoT
- Captured and analyzed data for intelligent lighting control
- Executed test cases and raised incident reports per SLA guidelines
- Enhanced urban safety through smart automation and regression testing

COURSEWORKS & CERTIFICATIONS

Python for Data Science	IBM via Coursera
SQL for Data Analysis	Udemy
Microsoft Excel for Data Analytics	LinkedIn Learning
Introduction to Cybersecurity	Cisco Networking Academy

PERSONAL PROFILE

Languages Known : English, Tamil

Area of Interest : Data Analysis, Programming, Networking, IoT, Virtualization

Hobbies : Playing video games, Watching football, Exploring tech gadgets
